

Adaptive Primitive Geometry (GeoJet-TS) - Dataset: weather (H=96)

weather (Low Complexity, $\kappa = 1.14$) | Active Primitives $K(x) = 5$

weather (Medium Complexity, $\kappa = 1.69$) | Active Primitives $K(x) = 3$

weather (High Complexity, $\kappa = 12.67$) | Active Primitives $K(x) = 3$
